

## 21 Africa: Physical

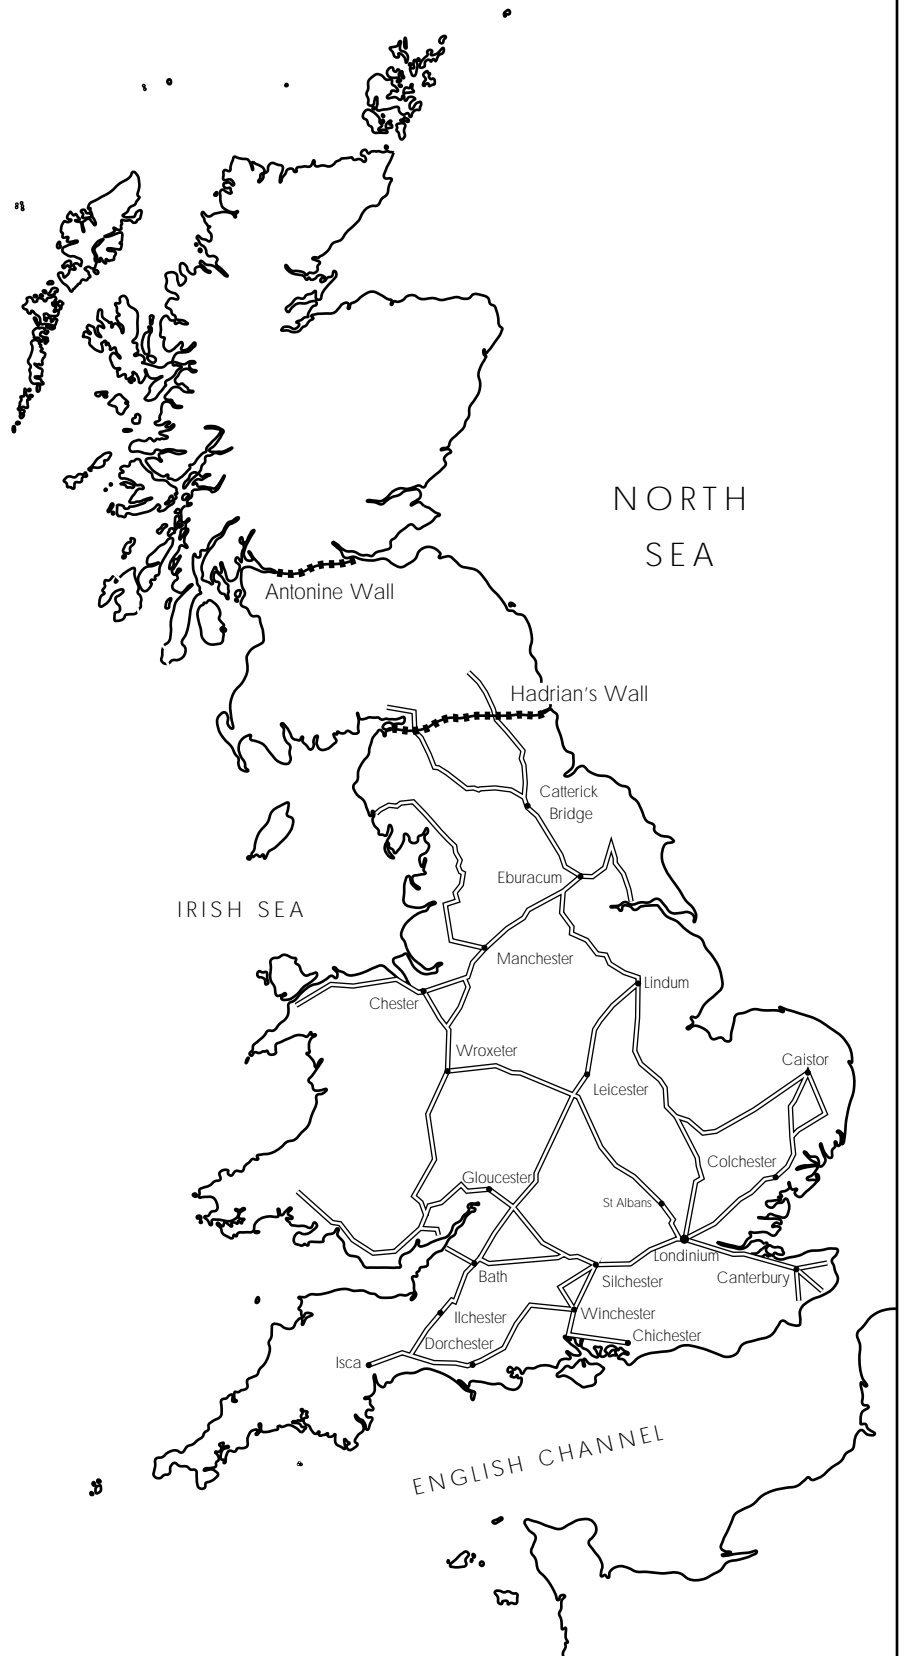

Read the descriptions below and use them to write the names of the seas and oceans in the correct places:

- Atlantic Ocean                      to the west of southern Africa
- Indian Ocean                        to the east of Africa
- Mediterranean Sea                a sea surrounded by land to the north of Africa
- Red Sea                                a long, thin sea between the Mediterranean Sea and the Indian Ocean

Key:

Roman Roads 

Regional Capitals •

0 50 100 150 200 kms

Scale: 1:3 200 000

## 27 Roman Britain

Use the scale to find out how far it was from Eboracum to Londinium by Roman road. Four of the towns have been given their Roman names by mistake. Find out what their modern names are (use map 5 to help you):

Eboracum = .....

Londinium = .....

Lindum = .....

Isca = .....
